

# TOTAL EMAIL

## NEX-TECH TOTAL EMAIL

Email, collaboration and scheduling tools are critical to the success of almost any business. Many small and midsize businesses lack the IT budget, or in-house team, required to implement and maintain the sophisticated messaging hardware and software they need. Email communication is critical for many businesses and often more important than telephone communication.

Total Email is focused on providing the highest quality and most reliable hosting service available.

### Let's Compare

	TOTAL EMAIL	IN-HOUSE EXCHANGE AND IT STAFF
Outlook Web App	✓	Unlikely
