Date

By signing, I the subscriber, agree to subscribe to Nex-Tech's Protection Plus (\$9.99/month) for one or more services for a term of 24 months from the date of my related trouble, in lieu of paying for the full cost to send a professional technician to my home. If for any reason I choose to terminate the agreement before the 24-month term, I will be assessed a Two Hundred dollar (\$200) Early Termination Fee (ETF) in addition to any previous outstanding balance due on my account.

\$6.00 Premium Wi-Fi Access Point

Premium Wi-Fi includes one access point. Additional access points are \$6 each. If installation is desired, standard installation fees apply.

# RESIDENTIAL PROTECTION PLUS & PREMIUM WI-FI

effective 08.20.18

# PROTECTION AND PEACE OF MIND

## What is Protection Plus?

**Protection Plus** maintenance plan ensures the inside wiring and jacks in your home that run your phone, Internet and TV service will stay in proper working condition. In addition, Protection Plus gives you peace of mind that if any of your Nex-Tech provided Internet equipment stops working as expected, we will troubleshoot it and repair or replace it. This includes your wireless router provided by Nex-Tech.

Protection Plus also includes free access to three premium features for your computer and/or mobile device - Password Genie, FileHopper Plus and SecureIT Plus. Protection Plus is \$9.99 per month.

**Premium Wi-Fi** ensures you have complete Wi-Fi coverage throughout your home, on multiple levels and even patios and decks. Premium Wi-Fi is \$6.00/month per access point. Subscription to Protection Plus required.

### Password Genie

Never forget a password again! Password Genie securely stores your usernames and passwords. It then automatically enters them for you at your favorite sites with smart logins. You can also customize Password Genie to help you remember important information such as birthdays, banking and insurance information.

### FileHopper Plus

Your computer or mobile device is full of important files like precious photos, music and documents. With FileHopper Plus, you receive 50 GB of free cloud backup. An easy portal allows you the ability to customize which files to back up. Data can be accessed remotely from multiple devices.

### SecureIT Plus

Fully protect your computer or mobile device with SecureIT Plus, a powerful all-in-one product with anti-virus, web security, parental controls, malware protection and support, firewall and anti-theft protection for smartphones and tablets. Support is free and if you ever get a virus, they'll remove that for free too!

## Why would I want it?

In the event that your Nex-Tech TV or Internet equipment stops working, you can rest assured that the Nex-Tech technical support team will walk you through the troubleshooting process, and if your issue can't be resolved over the phone, we'll arrange for a professional technician to come to your home during normal business hours to fix or replace the equipment.

### Without Protection Plus

- \$110/hour charge for a professional technician to troubleshoot and repair wiring, jacks or other issues related to your Nex-Tech services in your home.

## PREMIUM WI-FI

### Get the most out of your home Wi-Fi with Nex-Tech Premium Wi-Fi!

From your front porch, to your home office, to your grill, Nex-Tech Premium Wi-Fi makes it possible for you to enjoy your reliable, secure and fast Nex-Tech Internet connection everywhere in your home starting at \$6.00/mo for each access point.

### How does it work?

Premium Wi-Fi creates a bigger network for your household. Other solutions, such as Wi-Fi extenders, create new networks with separate authentication, so that you drop from one to another as you move through your home. With a network that is enlarged by Premium Wi-Fi, you remain connected from one area to another seamlessly, on the same network.

Premium Wi-Fi is so easy, you can set it up yourself and save installation fees. Simply push a button on the router, then another button on your access point. Then take your access point anywhere on your property. Handy LED lights let you know when you find the best spot to get the biggest network without weakening the signal.

Nex-Tech Premium Wi-Fi is \$6 per month per access point. A subscription to Protection Plus is required.

\*Outdoor coverage not guaranteed with standard install.
