

Pineapple Upside-Down Cake

Ingredients

2 cans of pineapple chunks or rings (reserve 1 cup of juice)
1 cup brown sugar
1 stick of melted butter (about 1/2 cup)
1 cake mix (white or yellow) + ingredients on the box

Directions

Drain 1 cup of juice from pineapple (for cake mix). Mix pineapple with remaining juice, 1 stick of melted butter, and brown sugar together, then pour into baking dish (spread pineapple mixture so that it covers the bottom of the pan). In a separate bowl (or the one you just emptied) mix the box cake mix. Follow directions on the box except substitute the reserved juice for the water. Pour on top of the pineapple mixture and bake on grill as directed on the cake mix box. Turn onto serving platter while still warm.
