MaX UC Communicator for Mobile
Quick Start Guide

CALL PULL
You can pull calls from your other devices onto your mobile. If a call exists that can be pulled, MaX UC Communicator displays a Call Available to Pull option. Tap this option and follow the on-screen prompts to pull the call onto your mobile.

VIDEO CALLING
If the person you are talking to is also using MaX UC Communicator and your phone has a front-facing camera, you can add video to your call. Tap More then Video to send video. The other person receives a prompt inviting them to switch on their video. Tap on the Video icon at any time to turn off your video feed.

FAVORITES
Tap the Star icon on a contact’s directory entry to add the contact to Favorites.

CALL NOTIFICATION
On Android phones, when you minimize the call window, the notification banner at the top of the screen indicates the active call.

On iOS devices, the call notification banner displays at the bottom of the Phone tab.

PRESENCE
Whenever one of your contacts is signed in to their Chat account, MaX UC Mobile displays their presence information on the Contacts, Phone, and Chat tabs.

PROFILE & SETTINGS
Click on your avatar in the top-right to access Call, Chat, Contact, and Messaging settings, and additional setup options. You can also configure your profile, send error reports and access Call Manager in the Profile & Settings window.

During a call, click on the Favorites icon to view your favorite contacts. Drag and drop a contact into the call window to setup a new call. When the contact answers, you can merge them into the initial call to create a 3-way call.
CALL MANAGER
You can tell MaX UC how to handle your incoming calls. Tap the Call Manager option in the Profile & Settings window and select Available, Do not disturb, or Forward all calls.

If you select Do Not Disturb, callers hear a recorded voice announcement saying that you are unavailable and are then connected to your voicemail. None of your devices will ring until you turn off Do Not Disturb, so be sure to use it carefully!

Select Forward all calls and, in the Forwarding number box, enter the number you want to forward all calls to.

Note that when you change your Call Manager settings, the change applies on all of your MaX UC Communicator devices.

EMERGENCY CALLS
MaX UC Communicator lets you make calls from anywhere on the most convenient device. If you place a 911 call from MaX UC Communicator, the 911 operator may not be able to identify where you are calling from.
